## LED Aquarium Lights

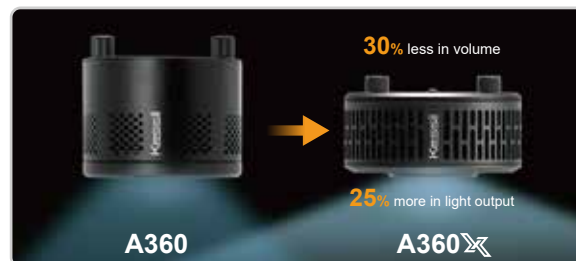

# A360

Tuna Blue · Tuna Sun

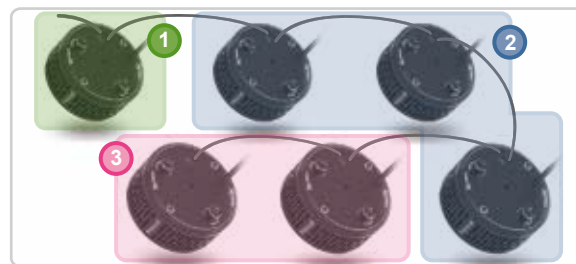

## Join the Spectral Revolution!

For aquarium hobbyists and professionals who need exceptional lighting, the Kessil A360X not only improves the solid design of its predecessor, it is the best LED aquarium light because of its high Photon Volume Density, advanced color control, new K-Link communication, revamped connectivity, improved transition points, and light shaping capability features.

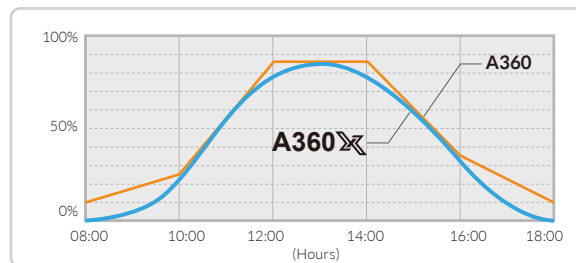

### Higher Photon Volume Density (P.V.D.)

Compare to all other lights, A360X has a low profile design with higher light output, thanks to the redesigned, first-class sunflower heat sink.

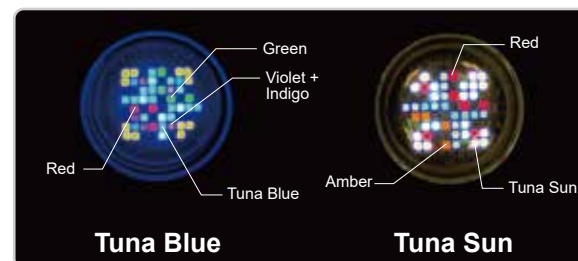

### K-Link Smarter Communication

A360X features a smarter communication method - K-Link, which keeps the easily plug & play feature of 0-10V while allowing users to easily network and program multiple fixtures.

### Improved Transition Points

A360X features smoother color transitioning and dimming, including moonlight effect.

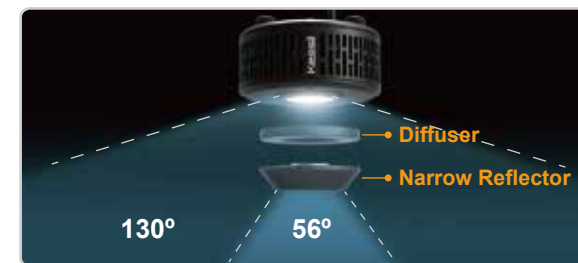

### Advanced Color Control

A360X has more color control in addition to the core spectrum, opening unlimited color combinations for aesthetic while not affecting the performance of core spectrum.

### Revamped Connectivity

The new premium Type-C connectors are water-resistant, bidirectional, reversible, and provide a more reliable and secure connection.

### Light Shaping Capability

A360X is compatible with optical accessories to shape light pattern, allowing users to modify the look of aquarium to their liking.
