SAFETY INSTRUCTIONS

1. DO NOT use a power supply outside the specifications. This is a fire hazard and may lead to unit failure.
2. DO NOT use outdoors. This unit is intended for indoor use only.
3. DO NOT expose unit to an extremely humid environment or submerge unit in water. This may lead to unit failure.
4. DO NOT place working illuminator in close contact with any objects. This may cause objects to heat up and the unit to overheat.
5. KEEP lens away from sharp objects. Sharp objects may break the lens and lead to unit failure.
6. DO NOT cover or place objects on the power supply. Power supply should not be contained in an airtight space.
7. ENSURE that the light is correctly mounted.

INSTRUCTIONS DE SECURITE

2. NE PAS UTILISER à l’extérieur. Cette unité est prévue pour une utilisation en intérieur.
4. NE PLACEZ PAS l’illuminateur en marche, en contact direct avec d’autres objets. Cela pourrait causer un réchauffement trop élevé de ces derniers et pourrait faire surchauffer l’unité.
5. GARDEZ la lentille (H) à l’écart des objets pointus. Les objets pointus pourraient casser la lentille et endommager l’unité.
6. NE RECOUVREZ PAS, ou ne placez pas d’objet sur le câble d’alimentation. Le câble ne doit pas se trouver dans un espace fermé.
7. Capitalize que la lampe est correctement montées/fixées

PRODUCT SPECIFICATIONS

INSTRUMENT

1. Power Consumption 185W maximum
2. Input Voltage 48V DC ±5%
3. Listed Power Supply
   Input 100-240V AC 50-60 Hz
   Output 48V DC, maximum 4.2A
Wireless Control:
The Kessil App is compatible with iOS devices. To download your respective version, open the App Store on your device and search for “Kessil WiFi Controller”. You can also scan the QR Code below to access the app download.

App Operation:
Once you have downloaded the app, follow the instructions listed to connect and operate the light.

MAINTENANCE
1. Keep the air intake hole, venting holes, and fan clear of dust. Perform regular cleanings with compressed air. Unplug the unit and insert the tip of a CO2 canister into one of the venting holes. Hold and spray. You may also gently vacuum out the dust through the venting holes.
2. Keep the lens clean. If the lens becomes contaminated with water, dust or other particles, unplug the unit and clean the lens with isopropyl alcohol. Wet a cotton swab or napkin with the isopropyl alcohol and gently wipe the surface of the lens. The light can be turned on once the lens is fully dry.

GETTING STARTED

Connect the AP700 to the power adaptor and plug it into a wall outlet. The LED indicator will be red to indicate standby mode.

Step 1  Start Lamp

Step 2  Turn On the AP700

Touch the button to turn on the AP700. Touching the button once more will shut the light off.

Step 3  Manual Control

You may manually adjust the intensity and color using the buttons located on the AP700.

Step 4  Program

Cycle through programs by using the button. Default programs can be customized through the app.

Cleaning
1. Turn off the AP700, remove the eight perimeter screws from the AP700 using a 3/32" (2.5mm) hex wrench. Set aside the top cover and gently clean the inside using a dry brush. Ensure the inside is clear of debris before reinstalling the top.

Mounting
Suspension Kit mounting is shown here. For other mounting options, please visit www.kessil.com.

Do not use water.
