**Step 1.1**
Remove the (A) screws from the toggle bolts.

**Step 1.2**
Loosen the top part of the hanging cable (C).

**Step 2.1**
Screw the toggle bolt (A) into the hanging cable (C).

**Step 2.2**
Squeeze the sides of the toggle bolt (A), then insert into a pre-drilled hole. 
*Hole Size - Min: 5/8" (16mm) / Max: 1" (25mm)*

**Step 2.3**
Screw the hanging cable (C) into the corners of the AP700. You are finished!

**Step 3.**
Remove the four corner screws from the AP700 using the hex wrench.

**Step 4.**
Screw the (B) screws in the wall tightly.
